The address of welcome will be given by Village President George B. Bartlett.

Preceding the services will be a line of march from the high school grounds to the park, at 1:30 o'clock. The American Legion color guard, Junior Legion Drum and Bugle corps, Boy and Girl Scouts, veterans of World Wars I and II, servicemen, patriotic groups and fraternal and civic organizations, and the high school band will be represented.

Services at the park will be under the chairmanship of Otto S. Klass, Americanism officer of the Antioch Legion post.

F. A. Swenson, Legion commander, will lead in the pledge of allegiance to the flag and J. Harry Messing, chaplain, will call the roll of departed veterans.

A detailed program of the observances is published elsewhere in this issue of the News.

Long Medical Career Ended For Dr. Beebe

Physician Who Served for Many Years in Lakes Region, Dies

Dr. Harry Ferris Beebe, who was for more than a quarter of a century engaged in the practice of medicine in Antioch, and who ended a three-year retirement by returning to his profession in 1943 at Grayslake, died at his home in that latter town Thursday afternoon at 4 o'clock, just two weeks after he had observed his seventy-eight birthday anniversary.

Dr. Beebe had been ill for several weeks. Nevertheless, his death was a shock to the many friends he had made during his lifetime.

A large gathering attended funeral services held Monday afternoon at 2 o'clock in the Strang chapel here. Burial was in Angola cemetery at Lake Villa.

Born at Aurora
Dr. Beebe was born May 3, 1867, at Aurora, Ill., and was the only child of Thomas and Josephine Beebe.

His mother died when he was four weeks old, and he was cared for and educated by his grandparents, Mr. and Mrs. John Ferris of Geneva, Ill.

He was a graduate of the Geneva High school and of the Hanniman Medical college and of Chicago Homeopathic College of Medicine.

Dr. Beebe maintained his practice in Antioch until six years ago, when he retired and the family moved to Anoka, Minn.

About three years ago, the Beebes returned to this area and built a home in Grayslake, where Dr. Beebe resumed his practice, continuing it until his final illness.

He was a member of Anoka Lodge No. 30, A. F. & A. M., Antioch lodge of Modern Woodmen of America and also had served as president of the Antioch school board.

Maj. Jackson to Speak at Round Lake Ceremony

Major Richard V. Jackson, U. S. A. Res., will speak at the Memorial Day observances at Round Lake.

Maj. Jackson, who is manager of Ardvale home, Channel Lake, spent nearly a year in England as a member of the Eighth Air force and helped lay the ground work for the initial bombing of Germany.

He also took part in preparations incidental to the African invasion.

With Memorial Day occurring on Wednesday of the coming week, many of the lake resorts are expecting large pre-season crowds this weekend, and several have planned special features.

Fire Ruins Trailer Full of Furniture

A small trailer full of furniture being brought from Chicago by E. Buettner caught fire on Sylvan Beach road just beyond Miss West's school Friday, bringing about a call for the Antioch department at 12:30 o'clock noon.

The trailer was damaged, Fire Chief L. R. Van Fatten reports.

The furniture, estimated to be about \$300 or \$400 in value, was probably a total loss, he believed.

Grade School Graduation to Be Held Mon.

High School Exercises are Announced for Friday Eve, June 1

Launching a series of graduation events for schools in Antioch community was the annual Eighth Grade banquet of Antioch Grade school, held last evening in the Methodist church dining room.

The grade school and nearby rural schools will hold joint graduation exercises Monday evening at 8 o'clock in Antioch Township High School auditorium.

The high school has set Friday evening, June 1, at 8:30 o'clock as the time for its thirtieth commencement program. Fifty-six seniors will receive their certificates at that time.

High school baccalaureate services are to be held Sunday evening at 8:30 o'clock in the school auditorium.

The Rev. Paul E. Turk of Libertyville will be the speaker at the joint (continued on page 5)

Seventh War Loan Drive Is Challenge, Says Otto S. Klass

Chairman Urges Whole-Hearted Support of Tshp. Campaign

There is still need for additional volunteer workers to help in Antioch township's Seventh War Loan drive, Otto S. Klass, chairman, said this week.

Quoting President Harry S. Truman's challenge, "The victory is but half won—I call upon every American to stick to his post until the last battle is won. Until that day, let no man abandon his post or slacken his efforts!"—Klass added:

"No American is going to slacken his efforts, Mr. President, and during this Seventh War Loan drive we are going to buy more bonds and put this drive away over the top."

"While our boys are dropping bombs on the Japs, we will be buying bonds in America, and by so doing, we in our humble way are showing the boys who are making every effort to bring this war to a speedy, victorious conclusion that Antioch Township is back of them 100 percent."

"Remember—a fight only half won is not won at all."

"Our prayers of thanksgiving for this important but partial victory should be tempered by our prayers to the almighty for an early and victorious conclusion of the Pacific conflict."

"So long as any of our armed forces are engaged in battle, we must support them with our sinews, our cash, our prayers."

"Let's show the boys that Antioch township is going to put the Seventh War Loan drive away over the top!"

Antioch Pupils Receive District Poster Honors

June Ann Hunter of Antioch won second prize in Group II of the district finals in the Poppy Poster contest sponsored by the American Legion auxiliaries, the local auxiliary was notified last week.

Rose Anne McGreal, also of this community, received third place, and Gertrude Figgan honorable mention in Group I.

All of the posters advertising Poppy Day (Saturday, May 26) here were made by grade and rural school students of Antioch township.

The poppies to be sold here are the handiwork of disabled veterans from this war and the first World War. These men who have been working in the hospital during the winter and spring to have the little flowers all ready for Poppy Day have benefitted not only financially but mentally as well. To be able to earn money, to have a pleasant occupation, has done a great deal to maintain their interest in life.

Girl Scouts will be the volunteer workers in charge of the poppy sales. All of the funds received will go into the Legion and auxiliary rehabilitation and welfare funds.

A delegation from the Antioch Fire department will go to Fox Lake Monday evening to attend the annual business meeting of the Lake County Firemen's association.

Ray Pregenzer, Grass Lake, is at St. Therese hospital for observation.

Took \$24,533 to Run Antioch for Year, Report Says

Village Expenses for '44-5 Were \$5,919 Over Previous Year

It cost \$24,533.13 to run the village of Antioch from May 1, 1944, to April 30, 1945, according to the final report filed by Mrs. Vera L. Rentner, retiring village treasurer, and published elsewhere in this issue of the News. This was \$5,919.46 over the previous year's disbursements.

Of this sum, however, \$3,000 is listed as payment for property purchased from the C. R. Thorn estate for park purposes; \$2,847.99 is for the retirement of municipal bonds and the payment of interest; \$1,628.00 for war bonds.

Receipts for the year amounted to \$22,614.62, and the cash balance on hand as of April 30 is listed as \$2,697.59.

The previous year's report, published in the Antioch News of May 18, 1944, showed receipts of \$18,174.62 for the fiscal year May 1, 1943 to April 30, 1944. Disbursements that year were \$16,745.06, leaving a cash balance on April 30, 1944, of \$4,566.20.

The cash balance as of April 30, 1943, was listed as \$3,136.64.

Vandals Damage Boat Anchored Off Pier

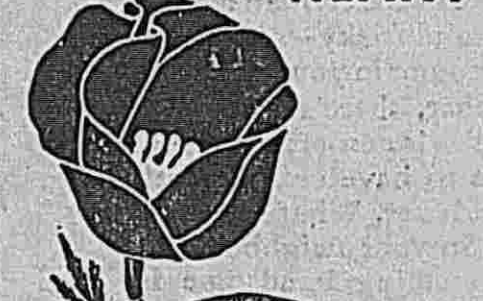

Vandals recently damaged a valuable covered boat anchored off Frank Runyard's pier at Channel Lake, it is reported. Damages, believed to have been caused by the throwing of stones, included a break in the boat cover and breakage along the mahogany edge of the boat.

A boat belonging to Elmer Camfield of Winthrop Harbor was reported to have been taken from the same pier several months ago.

Frank and Frieda Mikoleit have announced a "Season's Opening" party and dance at their place on the west side of Channel Lake, this Saturday evening. A smorgasbord is to be a feature.

Mrs. Michael Whited and Mrs. William Musser, Lakeland, Fla., have been visiting friends in Antioch and vicinity since last Friday. While here they have been house guests of Miss Elizabeth Webb and Ray Webb.

The Public Understands

A transcontinental train recently pulled into a Pacific coast city twelve hours late. Passengers missed connections to many points. The last half-day on the train they had little or nothing to eat as the dining room ran out of food.

"You would have thought caustic remarks about railroad service would have flown thick and fast. But a traveler on that train said: 'Not one word of criticism did I hear. For 2,000 miles we had been passing endless freight trains and troop trains. The travelers all seemed to realize that their affairs were secondary and that the railroads were doing a Herculean job, in keeping that volume of war traffic moving on schedule, and at the same time meeting the needs of civilians.'"

The failure to complain about the railroads was a demonstration of public understanding and appreciation of the unprecedented difficulties the railroads are overcoming as they carry both the war and domestic traffic of the nation. American industries and American citizens meet emergencies when put to the test.

No Easy Outs

Former War Mobilizer James F. Byrnes sums up the debt and taxation picture of the Federal government in a chilling light. In his final report he stated that the

Federal debt has reached \$233 billion—approximately \$2,000 for every man, woman and child.

No nation, even if it has lost a war, has heretofore had saddled upon it a public debt as large as the debt we as victors must pay.

Annual interest alone is now \$4,500,000,000. To appreciate what this means, recall that for the fiscal year 1939, the total of all internal revenue taxes was \$5,063,000,000 (not including Social Security funds). To put it another way, total income tax collected for the calendar year 1942 from all persons with incomes of \$5,000 or less amounted to only \$4,234,000,000—not enough to pay the interest this year on our Federal debt.

This is one problem that the people can't toss in the lap of government. It is their problem. They alone must pay.

Bang's Control Herd Retests are Approved

Illinois and federal authorities in charge of Bang's disease control have authorized all approved veterinarians in the state to make annual retests on herds originally listed for deferred slaughter under plan III. The ruling will become effective June 1.

Of some 40,000 herds tested last year, only 20 per cent showed infection. Many owners of herds containing only a few infected cattle have disposed of the reactors. These owners may now make application plan II, and thus get the benefit of retests and also qualify for future indemnities. Under the deferred slaughter plan III, retests are not made, and no indemnities are paid.

In a proclamation which declared that "the dairy farmers and the whole dairy industry of Illinois are making splendid records of production, despite the handicaps imposed by war," Governor Dwight H. Green has designated the month of June as Dairy Month.

"Swap" Campaign Put Appliances to Work

Over 15,000 idle electric household devices have been rejuvenated and put to work in the war effort in Antioch and other northern Illinois towns outside Chicago since the appliance "swap" campaign began about eighteen months ago, it was reported today by the Public Service Company of Northern Illinois. Electric irons comprise about 30 per cent of the total.

In answer to an appeal by the war production board, some 160 electrical dealers in suburban and northern Illinois communities have cooperated in carrying out the "swap" campaign. Hundreds of people have swapped their idle or broken electrical devices for their value in war stamps. The units, repaired by the dealers, were then sold to war workers and others unable to purchase new units because

THAT'S a wish your mother shares with you, little lady. She knows, however, your Daddy still has to finish the job that took him so far away from you.

But you may be sure he is counting on you and mother to keep things at home just as he left them—his civilian clothes brushed and fresh—the pup healthy and frisky—a smile on your lips and a song in your hearts.

And remember, there's one thing the Daddy you're lonesome for would especially like to have someone tell him soon in a letter. What is it? Just that everyone in your neighborhood really did something handsome in buying 7th War Loan Bonds.

In Memoriam
Sunday, May 27, will be observed as Memorial Day at the Methodist Church in Antioch. As the war continues there is increasing reason for special periods of paying tribute to our own Americans who have given all to our common cause. Men and women in military service, those who have been released, and all members of patriotic organizations are urged to join with us in honoring these of ours. The families of those in service, especially Gold Star families should have a vital interest in the services. Together may we thank God for American devotion, and pray for early termination of military strife upon the earth.

Ship Workers Needed to Speed War Against Japs

With Allied flags over every objective in Europe, men and guns will now swing to the Pacific. Pacing the final drive on Japan will be the United States Navy.

Every contingency for this final heave has been anticipated. Shipyards in Hawaii and on the Pacific Coast have been expanded.

"We have ships and guns, and men to man both ships and guns, but we are short of men to man the shipyards," said Lt. P. D. Kristich, Navy Yard liaison officer with the U. S. Civil Service Commission at the regional headquarters in Chicago.

"Latest reports show that the desperate Japanese, with their suicide planes and boats, have sunk several of our warships off Okinawa," said Lt. Kristich. "There is nothing we can do about the ships that have been sunk, but we can do a lot for the ones that have been damaged. A ship in the yards is a dead ship so far as the enemy is concerned. We must repair them quickly and get them back on the line."

He called attention to the cruiser, Birmingham, recently returned to service. "It could have been back seven days sooner if we could have had more electricians, sheetmetal workers and machinists," he said.

The War Manpower commission has given a No. 1 priority for all workers who go to the 14th Naval District shipyards. The Navy pays union wages, all transportation and provides low cost housing.

That these shipyard jobs are not to be considered temporary was indicated by a statement from Admiral F. G. Crisp, director, division of shore establishments civilian personnel:

"Civilian workers considering employment at West Coast Naval establishments may be assured that activity here will be continued at a very high level for a long period of time in the future."

He pointed out that America will end the war with approximately 5,500 ships, of which 2,200—or 24,000 tons—will be fast, modern victories, tankers and C-type vessels.

There will be a post-war fleet of 1,191 combat ships, according to plans recently submitted to Congress. Such a fleet would be almost three times the size of the pre-war fighting fleet.

Navy Talk

Men in the United States Naval academy at Annapolis are called midshipmen following the practice of the British navy. The name originated in Britain more than 200 years ago when men going through a course of training to become officers were assigned quarters amidship on the lower deck. Thus "midshipmen" came to be applied to cadets or line and executive officers of the lowest grade.

Fuel Saver

Drawing window shades at night, half way during the day and keeping them drawn in unused rooms all the time provides excellent insulation. This practice can cut fuel consumption 10 per cent in winter.

Paper Material

Bamboo may prove to be a valuable raw material for the manufacture of paper and good quality composition board. Government plant explorers began bringing in bamboos from the Orient and other parts of the world about 50 years ago, and there are now many small plantings of good varieties on American farms in the South. Commercial investigators are studying the processing of the culms (stems) into paper and boards, with results good enough to be called encouraging.

He can't ask you now!

... He's an American hero. After fighting bloody battles in the Pacific, he was home on leave two years ago.

... You may remember seeing his picture. His name is John Basilone, Marine Gunnery Sergeant. He traveled all over America, urging every American to buy more bonds.

... He said: "You don't know—you can't know—how much it means to the boys out there when they hear the folks back home have just put another War Bond Drive over the top."

... They gave him the Congressional Medal of Honor and offered him a commission. He didn't want it. "I'm a plain soldier," he said. "I want to stay one."

... Well, he stayed a plain marine—like Joe and Bill and the fellows down the street. He can't ask you to buy bigger bonds during

the Seventh. He was killed a few weeks ago on Iwo, just after he had led his assault team to the edge of an airfield we needed desperately.

... We can't let him and all our other fighting heroes down. Remember, last year we had two War Loan Drives by this time. The

Seventh is our personal call to arms—two drives in one. That's why our quota is large.

... We must meet it—we will meet it—for the hero of Iwo—for Victory—for pride in America.

William Doolittle, Born in Avon Tshp. 77 Yrs. Ago, Dies

William Doolittle, 77, who was born in Avon township Sept. 4, 1867, and died at his home, 2019 Lloyd avenue, Waukegan, Tuesday, was buried in Avon Center cemetery following services held at 2 o'clock this afternoon in the Waukegan Methodist church.

He was the son of Leonard and Calista Doolittle.

His wife, Sarah Jane, preceded him in death Feb. 25, 1938.

Surviving are a son, Bert, of Highway 173, Antioch; a daughter, Mrs. Russell Edwards, Waukegan, and another daughter, Mrs. Robert Fraatz, Chicago; sisters, Mrs. Viola Burge, Tampa, Fla.; Mrs. Fred Battershall and Mrs. John W. Hook, Grayslake; a brother, Herbert A. Doolittle, Waukegan; six grandchildren and one great-grandchild.

Doolittle was a director of the Avon school board for more than 30 years, had served as road commissioner, and was for many years director and manager of Avon cemetery.

His marriage to Sarah Jane Hook, who was the daughter of William and Sarah Hook, took place Nov. 30, 1891. Both he and his wife were members of pioneer families that played a prominent part in the early history of Lake county.

The body rested at the Strang Funeral home here until early Wednesday evening, when it was removed to the residence in Waukegan to lie in state there until time for the services.

Faulty Plugs

A spark plug gap will gradually widen after several thousand miles of normal service due to wear. To remedy this condition, set the gap to the exact size specified by the engine manufacturer using a round wire feeler gauge. Do not guess or use a "thin dime" for a feeler gauge. A gap may widen or wear quickly at low mileage. This indicates that the plug is operating "too hot"—often the wrong type of plug. If rapid gap wear occurs at low mileage, replace with a "cooler" type plug.

The importance of the Supply depot's work was emphasized by Fleet Admiral Chester W. Nimitz, USN, commander-in-chief of the Pacific ocean areas, when he said that this war is a conflict of "beans, bullets and oil," all of which represent problems of logistics handled by the Naval Supply depot. The depot is the most important Pacific link in the chain of supply for the mighty fleet now battering at the doors to Tokyo.
